03363466843 

Scheme 33, Karachi. 

30th January 2003 

I'm a Computer Systems Engineer and Web Developer creating and optimizing tech solutions. I love tackling complex problems and building user-friendly websites and applications. As a tech enthusiast, I'm always exploring the latest trends and innovations to bring fresh ideas to the table and help drive success.

WORK EXPERIENCE

NED ACADEMY.

SEP'25 – PRESENT

WEB DEVELOPMENT TRAINER

- Delivered instruction in Web Development technologies including HTML5, CSS3, JavaScript, PHP, and MySQL, focusing on practical coding, problem-solving, and real-world application development.
- Designed and implemented hands-on projects and coding exercises, enabling students to build responsive websites, interactive interfaces, and database-driven applications.
- Taught form handling, CRUD operations, and database integration using PHP and MySQL (phpMyAdmin) to help students understand full-stack development fundamentals.
- Guided students in version control and deployment workflows using GitHub and Netlify, preparing them for real-world web development environments.

DATA SCIENCE DOJO. (1 Year)

OCT'24–SEP'25

TECHNICAL CONTENT ENGINEER

- Developed technical content on data science, machine learning, generative AI, agentic AI, and LLM tools for varied audiences.
- Created hands-on coding labs, self-paced exercises, and slide decks to simplify complex technical concepts.
- Collaborated with subject matter experts to convert technical knowledge into developer-friendly content.
- Served as teaching assistant and coordinator for **LLM BootCamp** and **Agentic AI BootCamp**, supporting delivery and learner engagement.
- Designed lab workflows, coding challenges, and project-based assessments using real-world AI tools.
- Reviewed and refined course materials to ensure technical accuracy, clarity, and alignment with developer learning paths.

BLUEARK SOLUTIONS. (7 Months)

AUG'22 – FEB'23

JUNIOR WEB DEVELOPER

- Writing and maintaining code for websites and web applications using languages like HTML, CSS, and JavaScript.
- Identifying and fixing bugs or issues in existing code and ensuring that web applications function properly.
- Working with senior developers, designers, and other team members to understand project requirements and contribute to the development process.
- Continuously learning new technologies and best practices to improve skills and contribute more effectively to projects.

UTECH ACADEMY - NED (1 year)

OCT'21 - OCT'22

WEB DEVELOPMENT INSTRUCTOR

- Develop and organize course materials and lesson plans that cover various aspects of web development, including HTML, CSS and JavaScript.
- Deliver engaging lectures, demonstrations, and hands-on coding sessions to students, ensuring they understand and apply web development concepts effectively.

- Provide guidance, feedback, and support to students, helping them troubleshoot problems and improve their coding skills.
- Evaluate student performance through assignments, projects, and exams, and provide constructive feedback to help them improve.

NEUROCOMPUTATION LAB NCL-NED (4 Months)

FEB'22 - MAY'22

DEEP LEARNING INTERN

- Contributed in development and training of newborn health screening application by Indus hospital.
- Gained valuable experience working in an artificial intelligence industry, applying learned concepts directly into relevant work situations.
- Analyze problems and worked with teams to develop solution.
- Provided daily progress report to supervisor.

EDUCATION

BE – COMPUTER

OCT'20 – JUL'24

COMPUTER SYSTEMS ENGINEERING

NED UNIVERSITY OF ENGINEERING AND TECHNOLOGY

CGPA : 3.662

HSC – PRE-ENGINEERING

JUL'18 – JUL'20

ST.LAWRENCE GOVT GIRLS DEGREE COLLEGE

GRADE : A+ - 89%

PROJECTS

FINAL YEAR DESIGN PROJECT:

Deep Learning Based Urdu Image Captioning and Auditory Aid for Visually Impaired

NOTABLE TERM PROJECTS :

- Library Management System (python)
- Electronic Shop (OOP Python)
- Online shoes Store (Website)
- Online Course Management System (website)
- AI based Word Search Puzzle
- Temperature Sensor Based Intensity and Color Control (on FPGA)
- Temperature based Fan Speed Controller (PWM)

SKILLS

- C#
- Python
- Web languages Html, CSS & javascript
- Databases like MySQL
- Version Control
- Android Studio
- Wordpress
